### Project

#### QLC Chain

QLC Chain is developed specifically to support decentralized network transmission. Working in collaboration with NEO Chain, QLC Chain aims to provide a fast, scalable and extendable network, which enables its users to operate network services and benefit from it. It contains consensus suits, smart contracts, network protocols, etc.

#### QLC Token

QLC is a token issued on NEO blockchain and works as an utility token in the QLC Chain ecosystem. According to the system design, all purchases of network services should be made with the QLC Token.
